Experience

Yelp Inc.

Systems Infrastructure Team   June 2012 - August 2012

Interned on team responsible for developing software that helps other developers do their work. More to come once I actually start!

Bloomberg LP

Bloomberg Law   May 2011 - August 2011

Worked on optimizing software that helped analysts separate different kinds of legal documents. Most work involved machine learning and vector space models.

Case Western Reserve University

Department of Electrical Engineering and Computer Science   June 2010 - June 2012

Participated in team researching patterns in network scanning activity. Used statistical methods and other tests in order to classify types of scanning. Currently examining usage patterns of CWRU's fiber-to-the-home research network.

Activities

President – ACM student chapter   January 2012 - December 2013
Organizer – Hacker's Society   January 2012 - May 2012
